

HC-15M

Semi-Automatic Case-Making Machine

Semi-automatic machine for casemaking, lining and mounting, suitable for the production of binders, book covers, calendars and other paper over board items. Its user-friendly and compact design, together with the ease of operation and setup, makes this machine suitable for all production requirements.

The machine is composed of:

Sheet Feeder:

- Automatic lifting table.
- Pneumatically controlled feeding head lifts the sheet from the back.

Gluer:

- Top-surface gluing unit.
- Suitable for hot animal glue and for PVA glue.
- Vacuum transport-belt.
- It allows gluing all kinds of covering materials.

Board Feeder:

- Board is fed by hand.
- Has registered guides for accurate board positioning.

Wrapper:

- It turns in the four sides of the wrapping material.
- Automatically tucks the corners with an innovative precision device.
- High power nip-roller pressing unit.
- Ensures high and constant quality unit.

Delivery Tray:

- It allows non-stop unloading.
