

601A

Advantage Machinery™

Semi-Automatic L-Bar Sealing Machine

The 601A semi-automatic pneumatic L-Bar sealers that come in a wide range of sizes for all of your packaging needs. The product is fed manually with the film and the operator presses 2 buttons which activates a pneumatic cylinder to push the sealing bar down. An automatic conveyor transports the sealed product into the shrink tunnel which allows the operator to have the next product ready for sealing.

Some of the machine features are:

- Al-Chrome Wire sealing and cutting system for a strong seal and smokeless operation.
- Easy to adjust conveyor belt height.
- Easy to install and operate.
- Custom made machines available for oversized products.

Model 601A	Inches	Metric
Product Size (LxWxH)	(3/8"-19 5/8") x (4"-15 3/4") x (1/8"-11)	(10-500) x (100-400) x z(2-280)
Max. Film Width	19.5"	500
Max. Speed (Pieces/min)	15	15
Power (Volt./Ph./Amps)(Kw)	220/ 1/ 7	
Tunnel Power (Kw)		1.5
Overall Dimensions LxWxH	64" x 29" x 42"	1625 x 740 x 1070
Air requirements	55 PSI	4 Kg/ cm ²
